in PRIANDIKA RATMADANI ANUGRAH

Profile

Informatics student at Jenderal Soedirman University, specializing in programming, database, data analysis, data mining, and networking. Proficient in clustering and classification algorithms, Linux system administration, and database development. Experienced in Power BI/Looker Studio dashboards, Power Apps for business, and Arduino/IoT systems. Skilled in web (Laravel) and mobile (Flutter/Ionic) development. Knowledgeable in computer networks, routing, and firewall configuration.

Education

Undergraduate Informatics Student, *Jenderal Soedirman University* 2021 – present

MIPA (Matematika dan Ilmu Pengetahuan Alam), *SMA Negeri 1 Maos* 2019 – 2021

Experience

Project-Based Virtual Intern : Big Data Analyst, *Kimia Farma x Rakamin Academy* 11/2023 – 12/2023
Intern as big data analyst with a primary focus on creating data visualization through dashboard with Looker Studio. Indonesia

Production Engineer Packaging Internship, 07/2023 – 09/2023
HCL Cikarang Factory PT Unilever Indonesia Tbk. Bekasi, Indonesia
Intern under a Production Engineer Packaging Manager. The work carried out was creating DCA (Deep Compliance Audit) and SBO (Safety Behavior Observation) forms, creating Dashboard using Power BI, creating mobile and desktop based applications using Power Apps.

Skills

Programming

Javascript, C/C++, Python, Java, PHP, HTML/CSS, Laravel, Power Apps, Flutter, and Ionic Framework

Database Development

MySQL, Oracle, and Firebase

Data Analysis

Excel, Power BI, and Looker Studio

Networking

Routing and firewall configuration of MikroTik Router

Data Mining

Orange Data Mining, Python, and Octave

Robotic Engineering

Programming Arduino and IoT

Certificates

MikroTik 
MTCNA

Organizations

Soedirman Robotic Team, *Programmer of Yudishtira Team* 02/2022 – present
